SB 5, as amended, Beall. Affordable Housing and Community Development Investment Program.

Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, subject to certain modifications. Existing law requires an annual reallocation of property tax revenue from local agencies in each county to the Educational Revenue Augmentation Fund (ERAF) in that county for allocation to specified educational entities.

Existing law authorizes certain local agencies to form an enhanced infrastructure financing district, affordable housing authority, transit village development district, or community revitalization and investment authority for purposes of, among other things, infrastructure, affordable housing, and economic revitalization.
This bill would establish in state government the Affordable Housing and Community Development Investment Program, which would be administered by the Affordable Housing and Community Development Investment Committee. The bill would authorize a city, county, city and county, joint powers agency, enhanced infrastructure financing district, affordable housing authority, community revitalization and investment authority, transit village development district, or a combination of those entities, to apply to the Affordable Housing and Community Development Investment Committee to participate in the program and would authorize the committee to approve or deny plans for projects meeting specific criteria.

The bill would require the Affordable Housing and Community Development Investment Committee to adopt guidelines for plans and approve no more than $200,000,000 per year from July 1, 2020, to June 30, 2025, and $250,000,000 per year from July 1, 2025, to June 30, 2029, in reductions in annual ERAF contributions for applicants for plans approved pursuant to this program. This bill would provide that eligible projects include, among other things, construction the predevelopment, development, acquisition, rehabilitation, and preservation of workforce and affordable housing, certain transit oriented development, and projects promoting strong neighborhoods.

The bill would require the Affordable Housing and Community Development Investment Committee, upon approval of a plan, to issue an order directing the county auditor to reduce the total amount of ad valorem property tax revenue otherwise required to be contributed to the county’s ERAF from the applicant by the annual reduction amount approved. The bill would require a county auditor to deposit the total annual reduction amount approved within a county into the Affordable Housing and Community Development Investment Fund, which is created by this bill in the treasury of each county, and allocate moneys in that fund as directed by the committee, as specified. The bill would require the auditor, if the applicant is an enhanced infrastructure financing district, affordable housing authority, transit village development district, or community revitalization investment authority, to transfer to the city or county that created the authority or district an amount of property tax revenue equal to the reduction amount approved by the Affordable Housing and Community Development Investment Committee for that authority or district. The bill would require the city or county that created the district to, upon receipt, transfer those funds to the authority or district in an amount equal to the affordable housing
and community development investment amount for that authority or district. By imposing additional duties on local officials, the bill would impose a state-mandated local program. The bill would authorize applicants to use approved amounts to incur debt or issue bonds or other financing to support an approved project.

The bill also would require each applicant that has received funding to submit annual reports, as specified, and would require the Affordable Housing and Community Development Investment to provide a report to the Joint Legislative Budget Committee that includes certain project information.

Section 8 of Article XVI of the California Constitution sets forth a formula for computing the minimum amount of revenues that the state is required to appropriate for the support of school districts and community college districts for each fiscal year.

This bill would require the Director of Finance to adjust the percentage of General Fund revenues appropriated for school districts and community college districts for these purposes in a manner that ensures that the reductions in contributions to a county’s ERAF pursuant to the Affordable Housing and Community Development Investment Program have no net fiscal impact upon the total amount of the General Fund revenue and local property tax revenue allocated to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution, as specified.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. The Legislature finds and declares all of the following:
2 (a) In recent years the Legislature has created several new opportunities to use tax increment financing, which include the formation of enhanced infrastructure financing districts, affordable
housing authorities, and community revitalization investment authorities. While these new tools can be useful to local agencies, they are widely viewed as lacking sufficient financial capacity compared to what existed under the former tax increment financing tool utilized by community redevelopment agencies.

(1) Under redevelopment, all of the growth in property tax (tax increment) within a project area over a base year, net of mandatory pass-through payments, that would otherwise be allocated to cities, counties, special districts and school districts was dedicated to redevelopment purposes. Under the new tax increment tools, however, property tax increment from affected taxing agencies other than the initiating city or county can only be dedicated with the approval of the affected local agencies.

(2) While potential local partnerships between cities, counties, and special districts involving new economic development tools continue to be explored by the state and local governments, a reality is that the state and local governments often have other policy and budget priorities, and lack incentives to participate.

(3) The language in the new tax increment laws currently prohibit school districts from participating, largely reflecting state concerns over potential backfill requirements for school funding under the requirements of Proposition 98 of 1988.

(b) The state shares many policy priorities with local governments, including affordable housing and economic development, that can be advanced by creating a new infrastructure financing tool that would focus on the following:

(1) Increasing the production of affordable housing available to very low, low-, and moderate-income families.

(2) Expanding transit-oriented development at higher densities.

(3) Reducing jobs-housing imbalances in areas with high job growth.

(4) Increasing the availability of high-quality jobs through the rehabilitation, construction, and maintenance of housing and infrastructure.

(5) Improving the quality of life in neighborhoods and disadvantaged communities.

(6) Incentivizing growth in urban areas, thereby reducing sprawl and ensuring that open space is preserved throughout the state.
(7) Reducing poverty and caseloads of state and county safety net support programs by incentivizing the training and hiring of affected individuals to jobs where they can be self-supporting.

(8) Protecting communities dealing with the effects of sea level rise, which is one of the most significant threats of climate change.

(c) The Legislature has declared that the policy priorities listed in subdivision (b) are matters of statewide concern. It is therefore appropriate that the state and local governments contribute financially to the realization of these priorities.

(d) By allowing local agencies to reduce their contributions to their county’s Educational Revenue Augmentation Fund (ERAF) to fund affordable housing projects and related infrastructure, the state can advance its policy priorities while also protecting funding for schools and limiting effects on the state budget. The state’s interests can be ensured and protected in the following manner:

(1) Requiring approval of the newly created Affordable Housing and Community Development Investment Committee, to ensure that the investment of property taxes otherwise allocated to schools through a county’s educational revenue augmentation fund are used only for projects that maximize state policy benefits while ensuring that an economic analysis projects increased property tax revenues for schools in the affected territory upon project completion.

(2) Offering additional incentives to participating counties and special districts.

(3) Establishing an annual cap on the total affordable housing and community development investment amount that may be approved to be allocated by the Affordable Housing and Community Development Investment Committee, as follows:

(A) Not to exceed two hundred million dollars ($200,000,000) annually between July 1, 2020, and June 30, 2025.

(B) Not to exceed two hundred fifty million dollars ($250,000,000) annually between July 1, 2025, and June 30, 2029.

(4) Requiring annual reports to the Legislature on the status of all projects funded through this program.

(e) It is the intent of the Legislature that schools and community colleges receive no less total funding from General Fund and local property tax revenue as a result of the bill.

(f) It is the intent of the Legislature to have the state provide increased funding in an amount that equals reductions in local
ERAF funds to the point necessary for schools to meet their minimum funding guarantee pursuant to existing law.

(g) It is the intent of the Legislature that local agencies receive the same amount of excess ERAF as they would have if the program established by this bill were not in effect.

SEC. 2. Section 41202.6 is added to the Education Code, to read:

41202.6. (a) It is the intent of the Legislature to ensure that the program authorized by the Affordable Housing and Community Development Investment Program established by Part 4 (commencing with Section 55900) of Division 2 of Title 5 of the Government Code does not affect the amount of funding required to be applied for the support school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution.

(b) The Director of Finance shall adjust “the percentage of General Fund revenues appropriated for school districts and community college districts” for the purpose of applying paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution in a manner that ensures that reductions in contributions to a county’s Educational Revenue Augmentation Fund authorized by Section 97.68.1 of the Revenue and Taxation Code shall have no net fiscal impact upon the total amount of General Fund revenue and local property tax revenue allocated to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution. The Director of Finance shall make this adjustment effective with the 2020–21 fiscal year, consistent with the start of the grant program pursuant paragraph (1) of subdivision (a) of Section 55906 of the Government Code. The Director of Finance shall update the adjustment for subsequent increases or decreases in the amount of reductions authorized by Affordable Housing and Community Development Investment Program.

SEC. 4. Section 97.68.1 is added to the Revenue and Taxation Code, to read:
97.68.1. Notwithstanding any other provision of law, for each fiscal year for which funding for a plan for the county is approved under Part 4 (commencing with Section 55900) of Division 2 of Title 5 of the Government Code, in allocating ad valorem property tax revenue, all of the following shall apply:
(a) The auditor shall reduce the total amount of ad valorem property tax revenue otherwise required to be allocated to a county’s Educational Revenue Augmentation Fund by the
countywide affordable housing and community development investment amount.

(b) (1) The auditor shall, except as provided in paragraph (2), deposit the countywide affordable housing and community development investment amount into the Affordable Housing and Community Development Investment Fund, which shall be established in the treasury of each county. Moneys in the Affordable Housing and Community Development Investment Fund shall only be used for plans approved pursuant to Part 4 (commencing with Section 55900) of Division 2 of Title 5 of the Government Code, and shall be allocated to the applicant as directed by the committee.

(2) In the case of an applicant that is an enhanced infrastructure financing district, affordable housing authority, community revitalization investment authority, or transit village development district, the auditor shall allocate an amount equal to the enhanced infrastructure financing district’s, affordable housing authority’s, community revitalization investment authority’s, or transit village development district’s affordable housing and community development investment amount to the city or county that created the enhanced infrastructure financing district, affordable housing authority, community revitalization investment authority, or transit village development district. The city or county shall, upon receipt, transfer those funds to that enhanced infrastructure financing district, affordable housing authority, community revitalization investment authority, or transit village development district, in an amount equal to the affordable housing and community development investment amount for that enhanced infrastructure financing district, affordable housing authority, community revitalization investment authority, or transit village development district.

(3) The auditor shall allocate one-half of an amount specified in paragraph (1) or (2) on or before January 31 of each fiscal year, and the other one-half on or before May 31 of each fiscal year.

(c) For purposes of this section, all of the following shall apply:

(1) “Affordable housing and community development investment amount” for a particular city, county, or city and county means the amount approved by the Affordable Housing and Community Development Committee pursuant to Part 4
(commencing with Section 55900) of Division 2 of Title 5 of the
Government Code.
(2) “Countywide affordable housing and community
development investment amount” means, for any fiscal year, the
total sum of the amounts described in paragraph (1) for a county
or a city and county, and each city and county.
(d) This section shall not be construed to do any of the
following:
(1) Reduce any allocations of excess, additional, or remaining
funds that would otherwise have been allocated to county
superintendents of schools, cities, counties, and cities and counties
pursuant to clause (i) of subparagraph (B) of paragraph (4) of
subdivision (d) of Sections 97.2 and 97.3 or Article 4 (commencing
with Section 98) had this section not been enacted. The allocations
required by this section shall be adjusted to comply with this
paragraph.
(2) Require an increased ad valorem property tax revenue
allocation or increased tax increment allocation to a community
redevelopment agency.
(3) Alter the manner in which ad valorem property tax revenue
growth from fiscal year to fiscal year is otherwise determined or
allocated in a county.
(4) Reduce ad valorem property tax revenue allocations required
under Article 4 (commencing with Section 98).
(e) If, for the fiscal year, after complying with Section 97.68,
there is not enough ad valorem property tax revenue that is
otherwise required to be allocated to a county Educational Revenue
Augmentation Fund for the auditor to complete the allocation
reduction required by subdivision (a), the auditor shall additionally
reduce the total amount of ad valorem property tax revenue that
is otherwise required to be allocated to all school districts and
community college districts in the county for that fiscal year by
an amount equal to the difference between the countywide
affordable housing and community development investment
amount and the amount of ad valorem property tax revenue that
is otherwise required to be allocated to the county Educational
Revenue Augmentation Fund for that fiscal year. This reduction
for each school district and community college district in the county
shall be the percentage share of the total reduction that is equal to
the proportion that the total amount of ad valorem property tax
revenue that is otherwise required to be allocated to the school
district or community college district bears to the total amount of
ad valorem property tax revenue that is otherwise required to be
allocated to all school districts and community college districts in
a county. For purposes of this subdivision, “school districts” and
“community college districts” do not include any districts that are
excess tax school entities, as defined in Section 95.
(f) Any reduction in the amount of ad valorem property tax
revenues deposited in the county’s Educational Revenue
Augmentation Fund as a result of subparagraph (A) shall be applied
exclusively to reduce the amounts that are allocated from that fund
to school districts and county offices of education, and shall not
be applied to reduce the amounts of ad valorem property tax
revenues that are otherwise required to be allocated from that fund
to community college districts.
(g) (1) A property tax revenue allocation reduction or property
tax revenue transfer made pursuant to subdivision (a) or (b) shall
not be considered for purposes of determining under Section 96.1
the amount of property tax revenue allocated to a jurisdiction in
the prior fiscal year.
(2) The auditor may include the cost of workload related to
calculating reductions pursuant to subdivision (a) for the purposes
of Section 95.3.
SEC. 5. If the Commission on State Mandates determines that
this act contains costs mandated by the state, reimbursement to
local agencies and school districts for those costs shall be made
pursuant to Part 7 (commencing with Section 17500) of Division
4 of Title 2 of the Government Code.
SEC. 6. Each provision of this act is a material and integral
part of the act, and the provisions of this act are not severable. If
any provision of this act or its application is held invalid, the entire
act shall be null and void.
